RE: Low NOx Furnaces

ROUTE TO:	✓ SEEN	No. of Copies Distributed

NORDYNE is pleased to announce low NOx capability on 80% AFUE furnaces without the use of NOx rods. Therefore, we have ceased production on NOx model furnaces and replaced this production with the standard furnace. We will switch orders over to the standard models as inventory is depleted. To further clarify, below is a complete list of the standard SKUs and models that replace the corresponding obsolete SKU and obsolete models. All models with the "N" identifier are now obsolete and are replaced by the model with the "C" identifier.

Standard SKU	Standard Model
904631K	KG7SA 045C-23A
904632K	KG7SA 054C-23A
904633K	KG7SA 072C-24B
