**RE: New 5 ton Tax Credit Unit
16 SEER A/C FS4BF-060KB**

ROUTE TO:	✓ SEEN	No. of Copies Distributed

NORDYNE is pleased to announce a running change in the 5 ton (16 SEER) split air conditioner. Nordyne production is converting to a new FS4BF-060KB which when matched with B4VM-X60K-C meets the Federal Tax Credits. The new model was created to meet the Federal Tax Credit Requirements for Air Handler matches. NORDYNE will begin substituting existing orders to the new model; new models will be denoted with “KB” in the model number. Updated TSL’s are currently in process and will be posted online in the next 2 weeks. New AHRI ratings will be available this week on AHRI Directory. Below are New SKU’s, models, class codes, and pricing.

SKU	Model	Class Code	List Price
921082F	FS4BF-060KB	15B	\$6,817.00

The below tables indicate current performance relative to the tax credit requirements. A “Green” check indicates satisfactory performance and a “red” X indicates that additional work is required.

Model	Current Performance (SEER/EER)	
	Air Handler	Furnace w/C6 Coil
FS4BF-024KA	✓	✓
FS4BF-036KA	✓	✓
FS4BF-048KB	✓	✓
FS4BF-060KB	✓	X

See AHRI directory for official ratings and matches.
